This is the first Office action for application serial number 10/720,997, Method and Apparatus for Buttress Stabilization filed November 24, 2003.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, drawn to a method for stabilizing a vehicle in an unstable position, classified in class 248, subclass 352.
- II. Claim 21, drawn to a buttress stand end fitting, classified in class 248, subclass 352.
- III. Claim 22, drawn to an adjustable turret head buttress stand end fitting, classified in class 248, subclass 354.3.
- IV. Claims 23 and 24, drawn to a pivotal buttress stabilization base plate, classified in class 248, subclass 354.6.
- V. Claim 25, drawn to a method for stabilizing a vehicle in an unstable position, classified in class 248, subclass 156.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions II-IV has separate utility such as car jack for changing a tire or a prop for installing cabinet. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Thomas Aquilla on September 28, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gwendolyn Baxter whose telephone number is 571-272-6814. The examiner can normally be reached on Monday-Wednesday, 8:30am - 4:00pm.
